*Dr. Dinesh will see patients on 4th and 9th  
June. To schedule a consultation phone Kåre  
Troelsen. Tel.: + 45 28796339*

Seminar  
5th. - 8th.  
June 2008  
in Copenhagen

**Dr. Dinesh Chauhan**

Exploring patterns, energy and  
sensations in children cases

### The Seminar

This is Dr Dinesh's third seminar in Copenhagen and being a lively and spellbinding teacher he creates a feeling of going on a journey of discovery together with his audience. Experience has shown us that his seminars are always wonderful and logically explained with philosophical and scientific background for his views.

### The Children

The language and expressions of children may be difficult to make sense of through logic, but Dr. Dinesh has demonstrated via experience and seminars around the world how we can perceive their state.

Through their art, their gestures, their imaginations and the story of the pregnancy and birth we enter this very fascinating realm of the child.

### The Teaching

**Dr. Dinesh** takes the focus back to where it all starts; in the case-taking process. Without a good case-taking we have nothing to build on and one of Dr Dinesh's strongest points is showing how case-taking is the most delicate and precious process, where you have to be aware every moment. The skill with which he gently leads his patient towards their core, by using their language and gestures as his guidelines is well worth experiencing.

What really distinguishes Dr Dinesh as a lecturer is his ability to make the student follow him through the most winding journeys and make them see how he comes to the remedy. There is no mystery or missing links, it is all explained clearly and based on a clear understanding of the patient, the remedy and connected to the concept of the energetic law of the universe

### The Teacher

Dr. Dinesh—is a graduate from CMP Homeopathic College in Bombay and have worked in Dr. Sankaran's clinic and on Sankaran's books. He is an international respected teacher and is teaching in Korea, England, Denmark and South Africa as well as teaching in Sankarn's School of Classical Homeopathy which runs courses for foreign students in Bombay. He is a very dedicated teacher and is currently conducting a 3 year course for MD's in Japan. He has taught seminars in Misha Norland's School of Homeopathy in Devon, UK. He is currently working on his new books "the Journey After Simillimum" and "Exploring the Subconscious Mind". Dr Dinesh is using methods which apply the knowledge of families, kingdoms and sensations. His case taking is extremely clear and groundbreaking. Video cases are used to illustrate his points.

[www.homeohome.com](http://www.homeohome.com)

*"Dinesh is very sharp and clear. The video cases shown are good; in the cases the necessary information to find the remedy is revealed. The necessary sensations are found and confirmed. Dinesh goes into depth with the subjects of his patients, more than I have ever seen before. It is an experience to attend, so do not cheat yourself out of his seminars"*
